DECISIONS, ORDERS AND RULINGS

2.1 PARAMET CORPORATION LTD.

IN THE MATTER OF THE SECURITIES ACT,
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF PARAMET CORPORATION LTD.

RULING
(Section 73)

UPON the application of Paramet Corporation Ltd. ("Paramet") to the Ontario Securities Commission (the "Commission") for a ruling pursuant to section 73 of the Securities Act, R.S.O. 1980, c. 466 (the "Act") exempting Paramet from the requirements of section 133 of the Regulation to the Act in respect of the proposed registration of Paramet as an advisor in the categories of investment counsellor and portfolio manager;

AND UPON it appearing to the Commission that:

1. Paramet is a company incorporated under the laws of Canada, all of the issued and outstanding securities of which are held by Prudential Assurance Company Limited ("Prudential"), a wholly-owned subsidiary of Prudential Corporation plc, a British company; and accordingly, Paramet is a "non-resident" as defined in section 84(21) of the Regulation to the Act;
2. Prudential has been carrying on business in Canada since 1923, and presently carries on a full range of insurance activities, including such investment advisory and management activities as are permitted by the applicable legislation;
3. The involvement of Paramet as investment adviser in respect of Prudential's currently managed funds and accounts will enable Prudential's clients to retain custody of the assets in such accounts, and accordingly will alleviate the present competitive disadvantage suffered by Prudential in that it, or a Canadian trustee on its behalf, is required, as a non-resident insurance company pursuant to the applicable legislation, to retain custody of its assets under administration;

AND UPON reading the application, the joint submission by The Toronto Stock Exchange and the Ontario District Council of the Investment Dealers Association, and the recommendations of Commission staff;

AND UPON receiving a letter from the Investment Council Association of Ontario stating the non-objection of such Association to the registration of Paramet as an investment counsel and portfolio manager;

AND UPON hearing counsel for Paramet and Prudential, for The Toronto Stock Exchange, for the Ontario District Council of the Investment Dealers Association and for the Commission;

AND UPON being satisfied that to so rule would not be prejudicial to the public interest;

NOW THEREFORE, it is ruled pursuant to section 73 of the Act that Paramet is not subject to section 24 of the Act. In respect of its registration as an adviser in the categories of investment counsel and portfolio manager only insofar as Paramet shall be exempt from the requirements of section 133 of the Regulation to the Act, on the following terms and conditions:

1. That to the extent that the clients of Paramet are not trusts and corporations to which Part XI of the Income Tax Act (Canada) is applicable, the investment discretionary authority exercised by Paramet, to the extent consistent with the instructions of such clients, shall be exercised by Paramet, to the extent consistent with the instructions of such clients, shall be exercised as if the clients are subject to the foreign property restrictions which are applicable to trusts and corporations to which Part XI of the Income Tax Act (Canada) are applicable;
2. That the assets under management by Paramet shall be limited to three percent of total Canadian Trusteed pension fund assets as determined by Statistics Canada from time to time;
3. That the registration of Paramet shall be subject to review by the Ontario Securities Commission in the event of a material change in its ownership, as defined in paragraph 17 of section 83 of the Regulation under the Act;
4. That Paramet shall carry on business without having custody of clients' assets; and
5. That the registration of Paramet and any renewal thereof shall be subject to all conditions of registration applicable to an adviser classified in the category of portfolio manager, other than the condition of registration set out in sections 131 to 135, inclusive, of the Regulation to the Act.

IT IS ORDERED pursuant to section 99(e) of the Act that the Applicant is exempted in part from the requirements of section 89 of the Act with respect to the Offer in that the Offer may include a condition that the Applicant will have the right not to take up and pay for common shares deposited pursuant to the Offer if the majority of shareholders of the Applicant required by the rules of the TSE do not approve the issuance by the Applicant of common shares in connection with the Offer.

2.5 WALWYN INC. & WALWYN STODGELL COCHRANE MURRAY LIMITED

IN THE MATTER OF THE SECURITIES ACT
R.S.O. 1980, Chapter 466

AND

IN THE MATTER OF WALWYN INC.

AND

IN THE MATTER OF WALWYN STODGELL
COCHRANE MURRAY LIMITED

RULING
(Section 73(1))

UPON the application of Walwyn Inc. ("Walwyn") to the Ontario Securities Commission (the "Commission") pursuant to Section 73(1) of the Securities Act, R.S.O. 1980, c.466 (the "Act");

AND UPON being advised that:

- (i) Walwyn is a holding company holding all the issued and outstanding shares of Walwyn Stodgell Cochrane Murray Limited ("WSCM");
- (ii) Walwyn proposes to distribute by way of prospectus Units, each consisting of two common shares and one warrant to purchase common shares in the capital of Walwyn;
- (iii) WSCM is registered as a broker and investment dealer under the Act;
- (iv) in anticipation of the proposed offering of the Units, Walwyn has restricted the issue, ownership and transfer of its common shares to address the requirements ("Requirements") of Ontario Policy Statement No. 4.1 and to comply with the by-laws of self-regulatory organizations including The Toronto Stock Exchange and the Investment Dealers Association;
- (v) the Requirements in effect prohibit any one person or company and his or its associates or affiliates, other than certain prescribed "industry investors" from owning or exercising control or direction over more than 10 per cent of common shares of Walwyn;
- (vi) to effectively implement the Requirements, the registration of WSCM should be appropriately conditioned;

AND UPON being satisfied that the making of this ruling would not be prejudicial to the public interest;

IT IS RULED pursuant to section 73(1) of the Act that WSCM is not subject to section 24 of the Act provided that WSCM complies with all requirements applicable to a broker and an investment dealer under the Act and regulations made thereunder and provided further that:

- (a) no person or company and his or its associates or affiliates, other than an industry investor or Walwyn shall, directly or indirectly, beneficially own or exercise control or direction over the voting securities of WSCM; and
- (b) no one person or company and his or its associates or affiliates, other than an industry investor, shall, directly or indirectly, beneficially own or exercise control or direction over voting securities of Walwyn carrying more than 10 per cent of all votes attached to the issued and outstanding voting securities of Walwyn;

but notwithstanding the foregoing, the beneficial ownership of, or control or direction over, voting securities of Walwyn may be held in such manner that the condition of clause (b) hereof is not complied with, if the beneficial ownership, of or control or direction over, such voting securities is acquired by a broker or dealer in securities in connection with the underwriting or trading of the voting securities of Walwyn or the holding of the voting securities of Walwyn in street name for client accounts in the ordinary course of the securities business.

For the purposes of this ruling "industry investor" means any of the following that beneficially own any securities issued by Walwyn or WSCM:

- (i) a person who is a full-time officer or employee of WSCM or Walwyn;
- (ii) the spouse of a person referred to in subclause (i);
- (iii) a personal investment company where:
 - (A) a majority of each class of the voting securities of the personal investment company is held by one or more persons referred to in subclause (i); and
 - (B) all interests in all other equity securities in the personal investment company are beneficially owned by:
 - 1. one or more persons referred to in subclause (i) or (ii),
 - 2. one or more plans, funds or trusts referred to in subclause (iv), (v), (vi) or (vii), or

3. a combination of such persons, plans funds or trusts;
- (iv) a registered retirement savings plan established under the Income Tax Act (Canada) by a person referred to in subclause (i) or (ii), where control over the investment policy of the plan is held by that person and where no other person has any beneficial interest in the plan;
 - (v) a pension fund established by Walwyn or WSCM for their respective officers and employees, where the pension fund is so organized that the full power over its investment portfolio and the exercise of voting and other rights attaching to instruments and securities contained in the portfolio is held by one or more persons referred to in subclause (i);
 - (vi) a family trust established and maintained for the benefit of the children of a person referred to in subclause (i) or (ii), if,
 - (A) full direction and control of the family trust, including, without limitation, its investment portfolio and the exercise of voting and other rights attaching to instruments and securities contained in the investment portfolio, are maintained by either or both the person and the person's spouse, and
 - (B) all the beneficiaries of the family trust are children of a person referred to in subclause (i) or (ii) or are investors approved as industry investors with respect to Walwyn or WSCM, as the case may be and
 - (vii) the estate of a person referred to in subclause (i) or (ii);

This Ruling shall expire and cease to have any force or effect on the date that a Regulation to amend Regulation 910 of the Revised Regulations of Ontario, 1980 made under the Securities Act (Ontario) concerning Public Ownership Restrictions comes into force.

CHAPTER 3

REASONS: DECISIONS, ORDERS, RULINGS

3.1 ELECTRA INVESTMENTS (CANADA) LIMITED

IN THE MATTER OF THE SECURITIES ACT,
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF ELECTRA INVESTMENTS
(CANADA) LIMITED

REASONS FOR ORDER
(Sections 122, 123, 124)

Hearings: December 9, 15, 23, 1982

<u>Present</u> :	Harry S. Bray, Q.C.	- Vice-Chairman
	Geddes S. Webster	- Commissioner
	Frank Iacobucci	- Commissioner
	H. Garfield Emerson, Q.C.	- Counsel for Electra
	J.P. Bisnaire	Investments (Canada)
		Limited ("Electra")
	Ronald Rodgers	- Counsel for the
		Ontario Securities Commission
		("Commission")

On December 9, 15 and 23, 1982, the Commission held a hearing pursuant to a Notice of Hearing, dated October 25, 1982 and issued pursuant to section 124(1) of The Securities Act, R.S.O. 1980, c. 466 (the "Act"), to determine whether the exemptions contained in sections 34, 71, 72 and 88 of the Act should not apply to Electra. On December 30, 1982, the Commission stated that it was of the opinion that

1. it was not in the public interest to order that any or all of the exemptions in sections 34, 71, 72 and 88 of the Act should not apply to Electra, and

2. the allegations contained in the Notice of Hearing should properly be the subject of proceedings pursuant to section 122 of the Act.

Also on December 30, 1982, the Commission made an Order continuing a Cease Trading Order dated May 28, 1982 (and continued by a further Order on June 1, 1982) to cease trading in securities of Energy and Precious Metals Inc. by or on behalf of:

- (i) Electra;
- (ii) the directors and senior officers of Electra;
- (iii) all affiliates and associates of Electra; and
- (iv) the directors and senior officers of all affiliates and associates of Electra.

The Commission also ruled that the Order of December 30, 1982 should remain in full force and effect pending final resolution of proceedings pursuant to section 122 of the Act ASee (1983) 5 O.S.C.B. 9BA.

Briefly the background leading up to proceedings before the Commission is as follows. Electra, which has its head office and principal place of business at 165 University Avenue, Toronto, Ontario, during the period from January 1, 1981 to May 28, 1982 purchased common shares of Energy and Precious Metals Inc. ("EPM"), a corporation incorporated under the laws of Ontario which is a reporting issuer within the meaning of section 1(1)(38) of the Act. The issued capital of EPM consists of 1,000,000 non-voting class A shares and 500,000 common shares, both of which are listed on the Montreal Exchange ("ME"). The principal asset of EPM is its investment in 1,725,000 or 27% of the outstanding shares of Kam-Kotia Mines Limited ("Kam-Kotia"). Kam-Kotia in turn owns a 31.4% voting interest in Dickenson Mines Limited ("Dickenson"), and both Kam-Kotia and Dickenson have their shares listed on The Toronto Stock Exchange ("TSE").

During the period January 1, 1981 to May 28, 1982, Electra purchased common shares of EPM through Rasmussen, Sharp & Co. ("Rasmussen"), which acted as an introducing broker and which placed the orders to buy EPM shares with R.A. Daly & Company Limited for execution on the ME. Except for 1,200 of the 2,400 common shares of EPM that were traded on the ME on April 13, 1982, Electra purchased all of the common shares of EPM that traded on the ME during the period from April 13, 1982 to May 13, 1982. These purchases by Electra totalled:

1. 27,000 common shares of EPM (or 5.4% of the outstanding common shares) in the 30-day period ended May 12, 1982; and
2. 26,600 common shares of EPM (or 5.2% of the outstanding common shares) in the 30-day period ended May 13, 1982.

As a result of the purchases during this period Electra accumulated some 47% of the voting shares of EPM. Electra's purchasing moved the market price of EPM from \$6.00 to \$10.50 per share. Electra filed insider reports with the Commission relating to the purchases.

These trades were executed by Rasmussen on the instructions of A. George Dragone ("Dragone"), Managing Director of Electra. He dealt with O. Rasmussen for the most part. Both men testified and the dates of purchases and amounts bought were not disputed.

The complaint which resulted in the Commission's investigation and these proceedings was made by and on behalf of shareholders who controlled a substantial amount of EPM's equity through a shareholders' agreement to which EPM's President, William White, is a party. At an early stage, on learning that Electra had by then acquired a significant interest Dragone was approached by EPM's management to determine Electra's plans. The meetings were amicable, resulting in Electra participating in a private financing and getting representation on the EPM board, a situation which continued even following EPM's complaint to the Commission. EPM's management, upon learning that Electra continued to increase its holdings through market purchases at accelerating prices, invited Dragone to purchase their bloc of shares. Dragone refused.

It was alleged by Mr. Rodgers, on behalf of Commission staff, that the shares purchased for Electra through the ME were purchased from Ontario registered shareholders. To support this conclusion he called N.R. DaCosta ("DaCosta"), Senior Accounts Officer of National Trust Company ("National") - EPM's Registrar and Transfer Agent. DaCosta testified that all of the EPM shares transferred to Electra came from shareholders whose addresses on the books of the company were Ontario. From the comparatively few public shareholders, apart from Electra and the control group, and from the fact that during the latter period at least, with two exceptions, Electra was the only purchaser, we were invited to conclude that Electra had made what has been styled a "creeping" take-over bid from Ontario through the facilities of the ME to Ontario residents.

Against this background it was alleged Electra had made a take-over bid for EPM without complying with the requirements of section 89 of the Act. This section requires that a take-over bid be made in strict terms, through a disclosure document sent to all shareholders of the target company, and that each shareholder should receive the same offer. If this were so, staff counsel submitted it was in the public interest that the exemptions contained in sections 34, 71, 72 and 88 of the Act should not apply to Electra.

Subsection 88(2) of the Act contains exemptions from the requirements of section 89. While it was argued by Mr. Emerson that Electra's conduct did not amount to a take-over bid as defined in section 88 of the Act, some effort was made to show that it had been Rasmussen's intent to comply with the take-over bid requirements of Rule VIII of ME's by-laws which, like the TSE's current by-laws, exempts market purchases of up to 5% of the outstanding voting shares of the listed target company during any 30-day period. Since the ME has not applied for recognition under clause 88(2) (a) of the Act, therefore the stock exchange exemption is not available, Rasmussen made it clear that he knew that Electra were engaged in a take-over bid and that he intended to comply with the ME rules. In fact he made an error during the last stages in calculating the 5% purchase limit by using a 30-day calendar measurement rather than a trailing 30-day average. This resulted in the ME disciplining Rasmussen for failure to comply with their rules.

Rasmussen's evidence can be contrasted with that of Dragone who purported not to know or understand that, whether in Ontario or Quebec or both, Electra had made a take-over bid which did not comply with the laws of either province. The intent of the legislation in both Quebec and Ontario is to require that the party making a take-over bid does so openly, and as noted above, through a circular under strict rules regarding timing and disclosure. Under these rules the same offer must be made to all Ontario registered shareholders. On

Dragone's evidence Electra elected to make the take-over bid secretly oblivious to the fact that such rules existed.

Dragone testified that Electra's purpose in purchasing EPM shares was, as an inflation hedge, to get an interest in gold through EPM's equity interest in Kam-Kotia which in turn has a substantial interest in Dickenson. It was not to acquire a control position in EPM.

In looking at the special circumstances of this case, we have concluded that it is appropriate to make an application to the High Court under section 122 of the Act for an order requiring Electra to comply with the take-over bid requirements of the Act. EPM is an Ontario company, the substantial majority of whose shareholders are Ontario residents. The fact that its voting shares were listed on the ME does not alter the conclusion that a take-over bid was made from Ontario by an Ontario resident to Ontario registered shareholders albeit through the facilities of the ME. The legal question is an important one since it will determine whether the provisions for the Act could be circumvented, under different circumstances, by listing the securities on an Exchange outside of Ontario or arranging the offer to be made and accepted outside of Ontario.

Section 122 of the Act entitles the Commission to apply to the High Court for a compliance order where it appears that any person or company has failed to comply with the Act. In our opinion Electra has failed to comply. It is apparent that such action will enure to the benefit of the complainants, as well as the minority shareholders who are our principal concern in most cases. However, the question raised is an important one. It may be that a recommendation should be made to amend the Act to permit any shareholder (with the consent of the Commission to prevent frivolous actions) to have direct access to the court under section 122 of the Act.

DATED at Toronto this 17th day of March, 1983.

IN THE MATTER OF THE SECURITIES ACT,
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF HOLIDAY RENT-A-CAR LIMITED
AND 541118 ONTARIO LIMITED

RULING
(Section 73)

UPON the application of 541118 Ontario Limited (the "Issuer") and Holiday Rent-A-Car Limited ("Holiday") to the Ontario Securities Commission (the "Commission"), received on February 21, 1983 and perfected on March 4, 1983, for a ruling pursuant to subsection 73(1) of the Securities Act, R.S.O. 1980, c.466 (the "Act") that certain trades in securities of the issuer are not subject to sections 24 and 52 of the Act;

AND UPON it appearing to the Commission that:

1. Holiday is an Ontario company carrying on business as a franchise automobile rental and leasing system and is not a reporting issuer under the Act;
2. The Issuer is a newly incorporated Ontario company and is not a reporting issuer under the Act;
3. As part of a reorganization of its business operations, Holiday has caused the Issuer to be incorporated for the purpose of offering common shares of the Issuer to the various licensees and franchisees of Holiday's automobile rental and leasing system (the "Licensees" and "Franchisees"), to certain senior management personnel of Holiday and to Holiday;
4. The proceeds of issue will be used by the Issuer to purchase from Holiday all of the franchise agreements pursuant to which Holiday's automobile rental and leasing system is operated and the lease arrangements in respect of certain office premises which are presently owned by Holiday;
5. The proposed offering will consist of 2,000 common shares without par value (the "Common Shares") of the Issuer to be issued at a price of \$165 per share. Common Shares will initially be offered to Franchisees and Licensees alone on the basis of one Common Share for each automobile operated under franchise or licence from Holiday;
6. In the event that any Common Shares remain available for purchase following the initial offering referred to in paragraph 5 hereof, the following senior management personnel of Holiday will be entitled to subscribe for Common Shares on a basis which has yet to be determined:

William Gardiner - General Manager
Robert Rodney - Vice-President, Controller
Frank Desipio - Vice-President, Operations
Jan Boss - Accountant
Cindy Townsend - Marketing Manager

7. In the event that any Common Shares remain available for purchase following the offering referred to in paragraph 6 hereof, Holiday will be entitled to subscribe for up to ten percent (10%) of the Common Shares of the Issuer;
8. In the event that any Common Shares remain available for purchase following the offering referred to in paragraph 7 hereof, Franchisees and Licensees will be entitled to subscribe for the remaining Common Shares on a pro rata basis;
9. Each holder of Common Shares of the Issuer will be required to enter into a shareholders' agreement substantially in the form of the draft agreement filed with the Commission and annexed hereto as Schedule "A" (the "Shareholders' Agreement"), which will contain, inter alia, certain restrictions on the dealing by shareholders with their shares of the Issuer;

AND UPON the Commission being satisfied that to so rule would not be prejudicial to the public interest;

NOW THEREFORE IT IS RULED pursuant to subsection 73(1) of the Act that the issue of Common Shares by the Issuer to Franchisees and Licensees, to the senior management personnel referred to in paragraph 6 above and to Holiday are not subject to sections 24 and 52 of the Act, subject to the following conditions:

1. The Issuer shall prepare and deliver to each of its shareholders, but not to the Commission, the audited annual financial statements and unaudited semi-annual financial statements of the Issuer described in sections 76(1) and 77 of the Act within the time periods set forth in such sections;
2. The Issuer shall send to each holder of its shares entitled to notice of a meeting of shareholders an information circular as defined in paragraph 83(a) of the Act with or prior to the giving of notice of such meeting;
3. The by-laws of the Issuer shall provide for at least 21 day's notice of shareholder meetings;
4. The Issuer shall have delivered a copy of this Ruling to each prospective shareholder before the purchase by such prospective shareholder of Common Shares of the Issuer;
5. Each prospective shareholder shall execute a copy of the Shareholders' Agreement prior to purchasing Common Shares of the Issuer;

6. A trade of Common Shares of the Issuer by a shareholder thereof shall be subject to subsection 71(5) of the Act, as if such subsection were applicable, unless the trade is in accordance with the provisions of the Shareholders' Agreement, which shall contain a provision to the effect that shareholders wishing, or required by the terms of such agreement, to dispose of all or part of their Common Shares shall be obliged to sell such shares either to the remaining shareholders of the Issuer or to the Issuer; and
7. All certificates evidencing Common Shares issued after the date of this Ruling shall be engrossed with a legend indicating that every trade of such Common Shares by the holder thereof is prohibited except in accordance with this Ruling.

UPON the application of FFI (UK Finance) plc ("FFI") to the Ontario Securities Commission (the "Commission") pursuant to section 73 of the Securities Act, R.S.O. 1980, c.466 (the "Act") for a ruling that certain trades in warrants ("Alcan Warrants") to purchase common shares of Alcan Aluminium Limited ("Alcan") are not subject to section 52 of the Act;

AND UPON it being represented to the Commission that:

AND UPON it being represented that:

1. the Issuer is a corporation incorporated under the laws of the State of Ohio, one of the United States of America;
2. as of January 31, 1983, there were outstanding 28,788,836 common shares of the Issuer, which shares are listed on the New York Stock Exchange;
3. as of March 1, 1983, less than 1% of the common shareholders owning less than 1% of the outstanding common shares of the Issuer resided in Ontario;
4. pursuant to the terms of an Exchange Offer dated March 8, 1983 (the "Offer"), the Issuer offered to exchange shares of a new series of its Serial Preferred Shares (the "Series B Shares") for up to 5.6 million of its outstanding common shares tendered by all shareholders except participants in the Issuer's Employee Share Purchase and Investment Plan (the "Share Purchase Plan"), such exchange to be made on the basis of one Series B Share for each five common shares tendered and accepted by the Issuer. A similar offer to exchange Series B Shares was made to the participants in the Share Purchase Plan for up to 1.5 million outstanding common shares. The Offer is not conditional upon any minimum number of common shares being tendered. In the event that more common shares are duly tendered by all shareholders, other than Share Purchase Plan participants, than are to be accepted for exchange, acceptances by the Issuer will be on a pro rate basis, except that the Issuer will first accept all common shares duly tendered by all holders who beneficially own an aggregate of fewer than 100 common shares and who tender all of such common shares;

5. the offer is exempt from the registration provisions of the Securities Act of 1933 of the United States of America and has been made in compliance with the requirements of the Securities Exchange Act of 1934 of the United States of America;
6. the Offer is open for acceptance until 5:00 p.m., New York City time, on April 12, 1983, subject to extension at the option of the Issuer;
7. the Series B Shares provide for cumulative annual dividends, are convertible into common shares on and after November 1, 1983 at the rate of four common shares for each Series B Share, are redeemable and have a liquidation preference of \$125.00 per share;

AND UPON the Commission being of the opinion that it would not be prejudicial to the public interest to grant the requested ruling;

IT IS ORDERED pursuant to section 99(e) of the Act that the Issuer be and hereby is exempted from the requirements of Part XIX of the Act with respect to the Offer provided that all material relating to the Offer which has been or is sent by the Issuer to common shareholders resident in the United States of America shall be sent to those common shareholders of the Issuer resident in Ontario and a copy thereof shall be sent to the Commission;

AND IT IS RULED that the issue of previously unissued Series B Shares by the Issuer in connection with the Offer to common shareholders of the Issuer resident in Ontario is not subject to section 24 or 52 of the Act, on condition that the first trade by each Ontario resident to whom Series B Shares are issued is effected through the facilities and in accordance with the rules, including by-laws, regulations and policies, of the New York Stock Exchange.

1.1 SECURITIES ACT: O.REG. 180/83 - RENTAL CONVERSIONS

NOTICE

SECURITIES ACT:
O.REG. 180/83
RENTAL CONVERSIONS

On March 24, 1983 Cabinet adopted O.Reg 180/83 made under the Securities Act. The amending Regulation was filed with the Registrar of Regulations on March 28, 1983. It extends the "sunset" date applicable to section 19d of Regulation 910 (added by O.Reg. 637/82 on September 24, 1982) relating to rental conversions from March 31 to December 31, 1983. The Commission has been assured that the extension is necessary to enable the relevant ministries to complete their review of this matter and determine its treatment beyond the interim measures taken through the regulations under the Securities Act. No further extension of section 19d is anticipated beyond December 31, 1983.

The following is the text of the amending Regulation:

REGULATION TO AMEND
REGULATION 910 OF REVISED REGULATIONS OF ONTARIO, 1980
MADE UNDER THE SECURITIES ACT

1. Subsection 19d(1) of Regulation 910 of Revised Regulations of Ontario, 1980, as made by section 1 of Ontario Regulation 637/82, is amended by striking out "31st day of March" in the fourth line and inserting in lieu thereof "31st day of December".

1.2 O.S.C. POLICY 6.2 - RIGHTS OFFERINGS

NOTICEO.S.C. Policy 6.2 - Rights Offerings

The Commission staff was recently contacted by counsel for an Ontario public company which proposed to exclude Ontario shareholders (who held a significant percentage of the shares of the company) from a proposed rights offering. The Commission staff took the view that such an offering would be abusive to Ontario shareholders, since a rights offering, in contrast with a new offering of securities, is by definition an offering in which all security holders of the relevant class should have a right to participate. Counsel for the company was therefore informed by the Commission staff that it would recommend to the Commission that appropriate enforcement action be taken if the offering proceeded.

A draft amendment to O.S.C. Policy 6.2 (which would be paragraph 6 of Part VI of the policy) has been prepared to reflect the Commission's concern in this area, and the draft amendment appears in Chapter 5 of this issue of the Bulletin. Comments thereon are requested, and should be forwarded to the Secretary to the Commission on or before May 31, 1983.

1.3 NATIONAL POLICY 2-A

Submitting Reports on Mining Properties to
Canadian Provincial Securities Administrators

The Canadian Securities Administrators have adopted National Policy 2-A entitled "Guide for engineers, geologists and prospectors submitting reports on mining properties to Canadian Provincial Securities Administrators".

The new policy supplants that portion of the present National Policy No. 2 entitled "Guide for engineers, geologists and prospectors submitting reports to Canadian Provincial Securities Administrators" which deals with mineral properties.

National Policy 2-A is published herein after in Chapter 5 of this Bulletin. The new Policy is effective immediately.

POLICIES

5.1 O.S.C. POLICY 6.2 - PART VI - DRAFT AMENDMENT

O.S.C. Policy 6.2 - Part VI

Draft Amendment

6. Since a rights offering, in contrast with a new offering of securities, is by definition an offering in which all security holders of the relevant class should have a right to participate, the Commission would find objectionable a rights offering which excludes Ontario security holders where such an offering is made by:

- (a) a reporting issuer, or
- (b) a non-reporting issuer which has a significant percentage of security holders of the relevant class resident in Ontario.

Where an offering of this nature is made by any such issuer, the Commission would consider taking appropriate enforcement action against the issuer and its directors and officers.

5.2 NATIONAL POLICY NO. 2-A

NATIONAL POLICY NO. 2-A
GUIDE FOR ENGINEERS, GEOLOGISTS AND PROSPECTORS
SUBMITTING REPORTS ON MINING PROPERTIES
TO CANADIAN PROVINCIAL SECURITIES ADMINISTRATORS

General

Reports submitted must be engineering documents. They must be factual and the recommendations must be warranted in the light of the information and data presented in the report. The author must state that, in his judgment, the venture is of sufficient merit to make the work recommended a worthwhile undertaking.

Authors with professional affiliations will use their seal.

Reports will be accepted only for the purposes of a prospectus if prepared by an engineer, geologist or prospector who has gained a minimum of three years practical experience, unless the author holds exceptional qualifications and there are unusual circumstances.

Where the proceeds of the issue are being applied to the property being reported upon, the person making the report required to be filed with the administrator (Commission) must be free of any association with the issuer. Therefore, except where specifically provided for in the Regulations, the report shall not be written by a director, officer or employee of the issuer or of an affiliate of the issuer or who is a partner, employer or employee or any such director, officer or employee or who is an associate of any director or officer of the issuer or of an affiliate of the issuer. The report shall not be submitted if the person making it or any partner or employer of or associate to him beneficially owns, directly or indirectly, any securities of the issuer or of a subsidiary thereof or, if the issuer is a subsidiary, any securities of the parent issuer. This latter restriction does not apply to a person, partner, employer or associate, as the case may be, if the person, partner, employer or associate is not empowered to decide whether securities of the issuer or the parent issuer, as the case may be, are to be beneficially owned, directly or indirectly, by him, or if he is not entitled to vote in respect thereof.

Source of Information

If any of the information and data are not based on the author's own observations and investigations, their source should be clearly stated, giving exact reference to published reports and records. When such information is derived from unpublished or private reports or records, a photostatic or other authenticated copy of the original should be submitted, together with a letter of consent and a certificate of qualification respecting that author's professional qualification, except where the report is a matter of public record such as those on open file in a provincial or federal natural resources department.

Wherever reasonable and practicable, reports must be based upon the author's personal inspection of the property being reported upon.

Content of Reports

A complete report should include a description of the properties of the issuer in accordance with the requirements of the appropriate provincial legislation and regulations and should contain all pertinent explanation data including plans and sections. The report should be presented under the following headings as applicable:

Table of Contents

Summary

Preamble or Introduction including author's terms of reference

Property, Description and Location

Accessibility, Climate, Local Resources

History - comprehensive, with references to all previous work for which records are available

Geology

Mineral Deposits and their state of Development

The report must clearly distinguish between mineral showings which occur on the issuer's property being reported upon and those elsewhere in the area.

Reserves and Production

Conclusions and Recommendations with Cost Estimates

In Intermediate (Development) and Senior Financing (Production) Reports, the following vital considerations must be explored:

Recoverability and amenability of the raw material

Tonnage and grade versus optimum profitability

Markets

Smelter Contracts, tolls and transportation

Taxes

Cash flow, capital and operating cost estimates

Payback of capital with interest

The description of the properties must include claim numbers, whether patented or unpatented and if contiguous. The percentage of interest held in the properties should be stated.

If the potential merit of a property is predicated entirely or in part on results obtained on neighbouring ground, the known history of the latter should also be covered.

A description of mineralization encountered on the property should be given detailing the strike length, width, continuity and the basis of such measurement together with a description of the type, character and distribution of the mineralization. References as to its grade should be substantiated by assays with the data thereof, and by assay plans and sections. In addition to giving the widths of the individual samples it should be stated whether these are the author's own samples or those of other parties. The method of sampling should be described making it clear whether assay results are based on channel samples, chip samples, grab samples, character samples or core samples.

Values in precious metals should be expressed in ounces per ton or grams per metric ton and the content of other metals, etc., in percentages or pounds per ton, but not in dollars or other currency.

Care should be taken in the use of the word "ore". The term is defined in the most recent Ontario Regulations as follows:

- (a) "Ore" means a natural aggregate of one or more minerals which, at a specified time and place, may be mined and sold at a profit, or from which some part may be profitably separated;

- (b) "Proven Ore" or "measured ore" means that material for which tonnage is computed from dimensions revealed in outcrops or trenches or underground workings or drill holes and for which the grade is computed from the results of adequate sampling, and for which the sites for inspection, sampling and measurement are so spaced and the geological character so well defined that the size, shape and mineral content are established, and for which the computed tonnage and grade are judged to be accurate within limits which shall be stated and for which it shall be stated whether the tonnage and grade of proven ore or measured ore are 'in situ' or extractable, with dilution factors shown, and reasons for the use of these dilution factors clearly explained;
- (c) "Probable ore" or "indicated ore" means that material for which tonnage and grade are computed partly from specific measurements, samples or production data, and partly from projection for a reasonable distance on geological evidence, and for which the sites available for inspection, measurement and sampling are too widely or otherwise inappropriately spaced to outline the material completely or to establish its grade throughout;
- (d) "Possible ore" or "inferred ore" means that material for which quantitative estimates are based largely on broad knowledge of the geological character of the deposit and for which there are few, if any, samples or measurements, and for which the estimates are based on an assumed continuity or repetition for which there are reasonable geological indications, which indications may include comparison with deposits of similar type, and bodies that are completely concealed may be included if there is specific evidence of their presence, and
 - (i) estimates of "possible ore" or "inferred ore" shall include a statement of conditions within which the inferred material occurs, and
 - (ii) since the arithmetical average of any amount of sampling is not necessarily representative unless the distribution of values and number of samples are properly taken into account, a statement of how samples were taken shall be given, and where mineralization is erratic, the method of treating the erratic values shall be given in the narrative of the report.

Where the word "ore" may not properly be used, such terms as "mineralization", "mineralized bodies" or "concentrations", etc. should be used.

The information supplied in the report should be sufficient and positive enough to warrant the recommendations made. An estimate of costs for the proposed programme should be included.

Maps

Reports must be well illustrated by plans and by sections to give an adequate picture of the property. All reports must be accompanied by a location or index map and a more detailed plan showing all important features described in the text. If nearby properties have an important bearing on the possibilities of the ground under consideration, their location should be shown on the maps. Where the mineralized or ore-bearing structures are expected to pass from one property to the other, this should be indicated clearly on the map.

In case the potential merit of a property is predicated on geophysical or geochemical results, maps showing result of the surveys and the interpretations should be submitted.

All maps should show a scale, a North arrow, and should be signed and dated. If geological features or other data have been taken from government maps or from drawings of other engineers or geologists, this should be properly acknowledged.

Consent to Use of Name in Prospectus

Where the author of the report or valuation is named as having prepared or certified any part of a prospectus or is named as having prepared or certified a report or valuation used in connection with a prospectus, the written consent of such author to the inclusion of such report or valuation shall accompany the report or valuation when filed with the administrator. It is the responsibility of the author when giving such consent to have assured himself that it can properly be given.

Certificate of the Author

All reports must be submitted in duplicate with the author's certificate attached, both dated and signed. The certificate shall state:

- (a) the name, address and occupation of the author;
- (b) the qualification of such person;
- (c) whether or not the report is based on personal examination;
- (d) the date of any such examination;
- (e) if the report is not based on personal examination, the source of the information contained in the report; and
- (f) whether he has, directly or indirectly, received or expects to receive any interest, direct or indirect, in the property of the issuer or any affiliate, or beneficially owns, directly or indirectly, any securities of the issuer or any affiliate and if so give particulars.

INSIDER TRADING REPORTS

EXPLANATORY NOTES

Information contained in this section has been summarized from insider reports filed with the Commission.

The name of the issuer is followed by a brief description of the class of security, the name of the person or company reporting and his or its relationship to the issuer. If a person has an indirect interest in the securities reported, e.g., through holding companies, affiliate companies, partnerships, trusts or other entities, this is shown. Symbols are used in the column "Transaction and Ownership Symbol" to indicate the nature of ownership i.e., direct or indirect. Similarly, the character of transactions is indicated provided the transactions are other than a purchase or sale. (See guide to symbols below):

IN THE MATTER OF BALLY MANUFACTURING CORPORATION

RULING
(Section 73)

UPON the application of Bally Manufacturing Corporation ("Bally") to the Ontario Securities Commission (the "Commission") for a ruling pursuant to subsection 73(1) of the Securities Act, R.S.O. 1980, c. 466 (the "Act"), in respect of the first trade in certain common stock purchase warrants (the "Warrants") of Bally and in the common stock (the "Shares") of Bally to be issued pursuant to the exercise of such Warrants;

AND UPON reading the application and recommendation of staff of the Commission;

AND UPON it being represented to the Commission that:

1. Bally is not a reporting issuer in Ontario;
2. Bally is subject to the informational requirements of the Securities Exchange Act of 1934 of the United States of America and has been so subject for more than 14 years;

NOTICES

1.1 O.S.C. POLICY 5.7 - REVISION

NOTICE

O.S.C. Policy 5.7 - Revision

A revised version of O.S.C. Policy 5.7 (formerly Policy 3-64), relating to the preparation and filing of preliminary prospectuses, appears in Chapter 5 of this edition of the O.S.C. Bulletin and takes effect immediately. This revision was undertaken in response to comments received on the policy, notably from the legal profession, and in light of experience as to application of the policy over the past several months. The revised policy incorporates Parts D and E of the former policy, without substantive change, while deleting Parts A, B, and C of the former policy.

1.2 O.S.C. POLICY 5.6 - PROMPT OFFERING QUALIFICATION SYSTEM

NOTICEOSC POLICY 5.6 - PROMPT OFFERING QUALIFICATION SYSTEM

Effective immediately, the Commission has approved the following amendments to O.S.C. Policy 5.6 (the "Policy") entitled Prompt Offering Qualification System ("POP System"):

1. Secondary offerings of the securities of qualified issuers are now permitted pursuant to the POP System.
2. The Commission has reinstated the requirement for the written consent of an "expert" who is named as having prepared or certified any part of a document specifically incorporated by reference in a short form prospectus or is named as having prepared or certified a report or valuation used in a document specifically incorporated by reference in a short form prospectus.

A revised version of the Policy reflecting the above changes (as well as certain housekeeping amendments) will be published as soon as possible.

The Commission believes that the extension of the POP System to secondary offerings of the securities of qualified issuers is consistent with the underlying policy of the system, since for such offerings, no less than for primary offerings, there is no reason to require repetition in the offering document of information concerning the issuer which has already been published and disseminated into the public trading markets.

With respect to the consent of "experts", the Commission was concerned as to whether not requiring the consent of an "expert" in relation to a document specifically incorporated by reference in a short form prospectus was consistent with the stated aim of the Policy of streamlining offering procedures without reducing the existing benefits of investor protection (see clause 126(1)(d) of the Securities Act, the civil liability provision relating to reports, opinions or statements by "experts" in prospectuses). The original version of the Policy included a provision (section 6.3 of O.S.C. Policy 3-67, as published October 29, 1982) which required the written consent of an "expert" in relation to documents specifically incorporated by reference in a short form prospectus. This provision was removed because of concern that such a requirement, especially as it relates to the auditor's report on the issuer's annual financial statements, would prejudice the effective operation of the system, given the additional time that it was anticipated would be necessary to accommodate the auditor's involvement in the offering process. However, consent letters continued to be required under the relevant policies of certain other jurisdictions (notably Manitoba, Saskatchewan and Alberta) and in practice, this requirement has not proved to be an impediment to the effective operation of the POP System. Therefore, after consultation with affected parties, including members of the accounting profession, the requirement in the Policy for consents of "experts" in relation to documents specifically incorporated by reference in a short form prospectus has been reinstated. (It should be noted that the Commission continues to be of the view that if an "expert" is named in a short form prospectus as having prepared or certified a report or valuation used or in connection with the short form prospectus itself, the written consent of the expert is required by subsection 23(1) of the regulations under the Securities Act.)

The Commission has noted the provisions of the relevant policies of Manitoba and Saskatchewan which require an auditor's comfort letter in relation to unaudited financial statements specifically incorporated by reference in a short form prospectus. While the Commission has decided not to include this requirement in the Ontario Policy at this time, this subject will remain under review in light of further experience with the operation of the POP System .

1.3 HARRY S. BRAY, Q.C.

HARRY S. BRAY, Q.C.

1921 - 1983

The Ontario Securities Commission deeply regrets to report the death of Harry S. Bray, Q.C. on April 27, 1983. Mr. Bray joined the legal staff of the Commission upon his call to the Bar in 1951 and was appointed its Senior Counsel and head of its enforcement branch in 1958. Following a brief tour of duty with the Ministry of the Attorney General he was appointed Director of the Commission in 1964 and its Vice-Chairman in 1968. He occupied the post of Vice-Chairman until his retirement at the end of 1982.

As a senior official of the Commission, Mr. Bray made signal contributions to the work of the Canadian provincial securities administrators and the North American securities administrators. As Vice-Chairman, he participated in virtually all important decisions reached by the Commission and was an important contributor to the development of increasingly sophisticated securities and commodities futures legislation in Ontario.

Mr. Bray's death was sudden and unexpected. All of his former colleagues at the Commission together with all members of the securities industry and the industry's advisers who knew him will share his family's deep sense of loss.

The Honourable Robert G. Elgie, M.D.
Minister of Consumer and Commercial
Relations

9th Floor
Toronto, Ontario

Dear Mr. Minister:

Re: Norcen Energy Resources Limited Investigation

The media comment upon the conclusion of the Ontario Securities Commission concerning its investigation into the circumstances surrounding the acquisition by Norcen Energy Resources Limited ("Norcen") of an interest in The Hanna Mining Company ("Hanna") reflects a fundamental misunderstanding of Commission procedures which the Commission would like to correct. There have also been questions relating to this matter raised by some members of the Legislature to which the Commission would like to respond. I am therefore writing this letter to you on behalf of the Commission and, should you choose to do so, wish to advise that we would have no objection to your tabling this letter in the Legislature.

Commission investigations, whether conducted under sections 11 or 13 of the Act or in the discharge of the Commission's responsibility for the due administration of the Act, are performed by Commission staff on a confidential basis. Confidentiality is essential in order to facilitate the investigation and in order to avoid, either prejudicing a person's right to fair process in the event that the findings of the investigation justify proceedings, or damaging a person's reputation when the results of the investigation do not support further proceedings. The effective functioning of the Commission depends heavily upon the reliance which parties affected by its operations can place upon the confidentiality of the Commission's administrative proceedings.

Commission staff initiated the Norcen investigation pursuant to the due administration of the Act following receipt of a complaint dated April 13, 1982 from special Canadian counsel to Hanna. This complaint was made after Norcen made a public tender offer in the United States to purchase shares of the common stock of Hanna.

Commission staff reviewed the allegations made in the complaint with Norcen and its Canadian counsel. In early May 1982, Commission staff became aware that members of the fraud squad of the Metropolitan Toronto Police were also investigating the matter on the basis that in their view an offence under the Criminal Code may have been committed in connection with a Norcen issuer bid circular dated October 27, 1981.

The Commission's practice, when the same matter is the subject of a parallel investigation by the police, has been to subordinate its investigation under the Securities Act to the investigation into the more serious offence, namely the possible violation of the Criminal Code. Accordingly, the Commission staff deferred their investigation while the police investigation into the Norcen matter continued, although the staff did maintain liaison with the police.

Late in December 1982, the Commission became concerned that the police investigation would not be completed before the expiry of the one year limitation period for Securities Act offences. The Commission, therefore, instructed its staff to complete its investigation in time for consideration by the Commission before the expiration of the limitation period on April 12, 1983.

The staff report on the investigation was delivered to the Commission on March 25, 1983. The manner in which the Commission dealt with the report is detailed in my letter to you dated April 12, 1983, a copy of which is attached as Schedule "A".

Normally, a conclusion by the Commission not to initiate proceedings under the Act following an investigation would not be publicized. However, in the Norcen case, because the existence of the investigation and the term of the limitation period had become a matter of public knowledge, the Commission determined that in the public interest, a statement of its conclusion should be made. Such a statement was released on April 13, 1983.

In releasing the statement of April 13, the Commission deliberately decided not to expand on its conclusion by giving reasons because the police investigation was, and we understand is still, being conducted, and the Commission was concerned that it not prejudice the police investigation by a detailed release.

In addition, and as pointed out in my April 12 letter, the Commission does not give "reasons" for its administrative conclusions on staff recommendations. The Commission's review of the report of its investigators is not a public judicial proceeding where all interested parties have an opportunity to present their case. In a judicial proceeding the parties would be entitled to reasons for the Commission's decision. The review of a staff recommendation is an internal administrative proceeding involving only staff and the Commission.

The Commission is now of the view that it should depart to some degree from its normal practice and, while it is not prepared to release its staff report for the reasons outlined above, it is prepared to make the statement in this letter. The Commission has decided to make this departure from its strict code of confidentiality as a result of the publicity given to the Commission's conclusion in this matter and its concern that confidence in its operations might be undermined in the absence of a statement outlining the principles applied by the Commission in reviewing the staff report.

We should also address our concern about prejudicing the police investigation. The Attorney General, on a number of occasions in the past week, urged the Commission, in the public interest, to make a statement.

On the basis of his comments as the chief law officer of the Province, we have assumed that his opinion is that the police investigation will not be prejudiced by a statement.

As in all such cases, the Commission's starting point is to satisfy itself that an appropriate threshold of certainty exists before the Commission would recommend to you, initiation of proceedings under the Act. The threshold is not simply that a conviction may be possible or arguable. On the evidence presented by the staff, there must be a reasonable likelihood that a conviction will be obtained. The necessary degree of probability is difficult to define in the abstract and can really only be determined through the application of the law as to the facts of each particular case. In this case, the Commission concluded that the required threshold of certainty was not present.

Upon reviewing the evidence set out in the staff report, the Commission inferred that senior officers of Norcen, on behalf of Norcen, pursued the establishment of a possible relationship with Hanna over an extended period of time from January 1979 to July 1982. In the course of this pursuit, the officers had under active consideration a number of fundamentally different alternative courses of action, including (i) making limited open market purchases to provide a basis for negotiation or to accumulate securities to be disposed of; (ii) making a public tender offer to acquire 20% of the outstanding Hanna shares; (iii) making a public tender offer to purchase 51% of the outstanding Hanna shares; and (iv) negotiating an agreement with Hanna similar to the agreement announced July 7, 1982.

In the Commission's view, there was not a "material change" in the affairs of Norcen or a "material fact" in relation to securities of Norcen within the meaning of the Securities Act until the board of directors of Norcen or the senior officers, in the belief that their decision would be confirmed by the board of directors, decided to implement a specific course of action.

Thus in the view of the Commission the material change occurred only when Norcen decided on a course of action: in this case, to make a tender offer for 51% of the outstanding Hanna shares, disclosure of which was made in accordance with the Act. The Commission is of the view that an analogous situation to the course of action embarked upon by Norcen would be the negotiation of a contract between two public companies, disclosure of which is generally made only when an agreement in principle is reached.

In reaching its conclusion, the Commission was particularly mindful of one of the basic principles in the Securities Act, and that is to require disclosure of material changes upon their occurrence - no sooner, no later. The Commission has administered its laws so as to counsel equally strongly against premature disclosure as against late disclosure. Late disclosure, of course, results in uninformed trading in the market. Premature disclosure can be equally destabilizing and can create confusion and result in expensive and disappointed investment expectations on the part of the investing public. This principle was the subject of a notice published by the Commission at page 450 of its 1980 Bulletin. This notice is entitled "Premature Announcements of Take-over Bids, Mergers, Amalgamations or Other Corporate Restructuring" and provides as follows:

"The Commission has become increasingly concerned about the number of proposals for takeover bids, mergers, amalgamations or other forms of corporate restructuring which have been announced with a substantial period elapsing before definitive documentation issues or, on occasion, a follow-up announcement is made that the proposal has been abandoned or materially altered. The press release making the announcement frequently gives sufficient information to affect the market price of the securities of issuers named in the proposal. Substantial uncertainty is often created in the market place because of lack of detail...

The making of a statement that the party intends to proceed implies a present willingness and ability to carry out that intent. If the party making the public announcement is not in a position to make the definitive proposal shortly after making the press release, the making of the announcement will be considered premature and misleading."

This notice was an important factor in the Commission's decision as, in its opinion, it must interpret and administer the Act in a manner consistent with the directions given to the investment community through its published policies and notices.

I would now like to turn to one of the issues raised by the media and in the Legislature and that is, why you, as Minister of Consumer and Commercial Relations, must consent to a prosecution under the Securities Act. This was also discussed in my April 12 letter and has been very capably addressed by you in the Legislature. We are strongly of the view that the confidence that the financial community has in the Commission would be eroded in a fundamental way if one of the basic tools for administering the Act, the decision to initiate prosecutions under the Act, was removed from the

Commission or shared with another agency. This was the conclusion of the Report of the Attorney General's Committee on Securities Legislation in Ontario (J.R. Kimber, Chairman, 1965) set out below, which was reflected in the 1966 Act:

"The Commission has traditionally been a branch of the Department of the Attorney General, which relationship was clarified by statute in the amendments to The Securities Act in 1962-63. This relationship may have been appropriate when securities regulation was first introduced in Ontario, since the legislation was primarily directed to the prevention of fraud in the sale of securities. However, such relationship is of limited importance today and will continue to be of less importance in the future. The administration of securities legislation should not be directed primarily to criminal and quasi-criminal law enforcement but rather to the enhancement of the position of the securities industry in the economic life of the province."

Another question raised by the media concerns my participation in the Commission's review of the report of its investigators. This issue was addressed in my letter to you dated April 14, 1983, a copy of which is attached to this letter as Schedule "B". My participation is also the subject of a letter of the same date written to you by the members of the Commission, other than myself, who participated in the Commission's review of the staff investigation report dated April 14, 1983. A copy of the letter from the seven Commissioners is attached hereto as Schedule "C".

Needless to say, I have been deeply troubled by the comments concerning my perceived bias. I have therefore

asked Brian Bellmore, special counsel to the Commission, who advised me orally that I could participate in this review, to confirm his advice in writing. You will note that his opinion, which is attached as Schedule "D", concludes that:

"In summary, in determining whether at law there is a reasonable apprehension of bias in members of administrative tribunals, the courts recognize that members of such tribunals will necessarily have had a prior professional association with the parties or their counsel and that such an association is not grounds for establishing a reasonable apprehension of bias provided that the member had terminated his prior association and had no involvement in the matter before him."

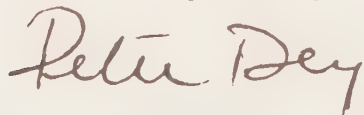

The issue of my perceived conflict of interest is so important to me personally that I would like to reiterate the other steps which I took before participating in the Commission's deliberations. I first satisfied myself that I had no interest in the outcome of the Commission's review. Second, after careful consideration, I satisfied myself that I could indeed pass impartial and objective judgment upon the staff recommendation. I would not have participated had I had any concern that I could not meet this test. Third, I sought the advice of the Commission senior staff who have developed experience over the years in the resolution of conflict of interest questions confronted by other members of the Commission drawn from the private sector. The senior staff advised that my participation was consistent with Commission practice. Fourth, I disclosed my previous law firm association to my fellow Commissioners who, as you will observe from their letter attached as

Schedule "C", in effect urged me to participate because of the importance of the case and the complexity of the legal issues raised by the case. Having taken these steps, I concluded that I should try to carry out what I believe to be the responsible course of action and that is to carry out my responsibilities as Chairman if legally and practically possible.

As you may appreciate, the Commission is deeply troubled by the questions raised concerning its review of the staff report and my alleged conflict of interest. I can assure you that we have thoroughly reviewed the evidence presented in the staff report and have applied the relevant law using our best judgment as securities regulators acting in the public interest.

The seven other Commissioners who participated in the review of the staff report on this matter, namely Keith E. Boast, Jack W. Blain, Q.C., Alfred T. Holland, Frank Iacobucci, R. James Kane, Edgar S. Miles and Geddes M. Webster, have been directly involved in the preparation of this letter and concur in its contents.

Dear Dr. Elgie:

I am writing this further letter separately from my letter dated April 26, 1983 which I have suggested be tabled in the Legislature, because this letter deals with an issue which you may wish to discuss privately with the Attorney General.

The Commission's review of the staff report only became a matter of public information when the contents of the staff report were improperly provided to the media. The Commission has questioned its own staff, and it is satisfied that its staff was not the source of the information provided to the media. The Commission would like to suggest to you that you request the Attorney General to initiate similar inquiries of his staff. The Commission remains anxious to co-operate with the Attorney General in parallel investigations, but in doing so, the Commission must be assured that the confidentiality of its investigations is respected. The Commission does not, at the present time, have this assurance.

Dear Dr. Elgie:

Re: Norcen Energy Resources Limited

I am writing to confirm my telephone advice to you earlier this evening following the special meeting of the Commission.

The special meeting was called by me in view of the Attorney General's request of you to ask the Commission to reconsider its decision that there are not sufficient grounds to support a recommendation to prosecute, or to institute any other proceedings against, Norcen or any of its officers or directors under the Securities Act (the "Act") arising out of the circumstances surrounding the acquisition by Norcen of shares of The Hanna Mining Company. All eight Commissioners who have participated in the making of the decision attended the meeting. At the meeting the Commissioners heard submissions from Harry G. Black ("Harry Black"), Deputy Director, Crown Law Office - Criminal and from David Doherty, Crown Counsel, that the Commission should recommend, and that you consent, as required by the Act, to instituting proceedings to prosecute Norcen and certain of its directors and officers for breach of the Act.

The background for this request and meeting is an investigation of the circumstances referred to above, carried out by Commission staff, the report of which recommended in favour of instituting proceedings. The report was presented by staff

/...2

The Honourable Robert G. Elgie, M.D. April 12, 1983

to the Commission at a special meeting on March 25. A second special meeting to consider this report was held on April 5. The matter was further considered in the course of the Commission's regular meeting on April 7. All Commissioners (except for David Stanley, who was on vacation at the time of the March 25 and April 5 meetings and did not participate in the decision, and Jack Blain, who was absent on March 25, but who did participate in the meetings of April 5 and 7 and in the decision) were present for all three meetings and participated in the decision. On April 7, I instructed our Deputy Director - Enforcement, to communicate our decision to Harry Black to ensure that we had not overlooked any material evidence which might have been obtained by the Metropolitan Toronto Police in its parallel investigation. We also provided Harry Black with a copy of our staff investigation. On April 8 I received a call from Harry Black and the Deputy Attorney General seeking an understanding of the basis of the Commission's decision. Rather than attempt this by 'phone, I offered to meet with them to discuss their request and to satisfy myself as to the completeness of the Commission staff investigation. A meeting was arranged for April 9 at which were present myself, the Vice-Chairman, Commissioner Blain, the Director, the Deputy Director - Enforcement and the Legal Advisor to the Director, for the Commission and Harry Black and Sargeant Bob Grieg of the Metropolitan Toronto Police. At this latter meeting we discussed in general terms the Commission's interpretation of the Act and its application to the evidence and satisfied ourselves that we had not overlooked material evidence.

As you probably are aware, normally a Commission investigation is not a matter of public knowledge and the Commission's consideration of its staff's report is an internal administrative matter. Because this consideration is an internal administrative act, the Commission does not prepare or publish written reasons. Accordingly, we would not be faced with requests originating outside the Commission for an opportunity to make submissions on the Commission's consideration of the report of the

The Honourable Robert G. Elgie, M.D. April 12, 1983

investigation. In this case, we were aware of the parallel investigation and concluded as a matter of diligence and in a spirit of co-operation to inform the Crown Law Office of the results of our staff investigation and the Commission's conclusion thereon.

The Commission's unanimous decision was not to recommend a prosecution under the Act and was not varied following the special meeting earlier this evening. The Commission also decided that, although it would not actively oppose your consenting to any request for a prosecution made by the Attorney General, it would inform you of its clear decision following the special meeting.

It is the Commission's strongly held view that a decision to institute prosecution proceedings under the Act is an action involving the administration of the Act, an action which is the Commission's responsibility according to section 2 of the Act. The Commission is comprised of a group of experts in the securities field, presumably chosen because of their ability to understand securities transactions and the application of the Act to such transactions in the public interest. It is fundamental to the effective administration of the Act that the Commission's administration of the Act not be compromised by outside influences and that in the cases where your consent is required for action under the Act, you rely upon the advice of the Commission.

In your letter of today's date, you attached a copy of a letter from the Attorney General which raises certain issues requiring comment. The Commission in its April 9 meeting with Harry Black and Sargeant Grieg engaged in a discussion of certain of the merits of the case and of certain of the policy considerations underlying the disclosure requirements of the Act and the administration thereof. The Commission did not, nor did it purport to, give "reasons" for its administrative conclusion on the staff recommendation.

The Attorney General should also be advised that it is not uncommon for the Commission not to accept

The Honourable Robert G. Elgie, M.D. April 12, 1983

its staff recommendations. We therefore do not accept any suggestion that the Commission's decision not to accept its staff's recommendation should constitute the basis for a judicial determination of this decision.

Finally, the Attorney General suggests in the last paragraph of his letter that the Commission "seems motivated in large measure by its conception of the manner in which the Act should be enforced, and its view of practices in the "constituency" the Act is intended to serve. The general considerations appear to have overcome the evidentiary force of the specific facts revealed by the investigation." Without question we administer the Act in a manner which we hope reflects the intent of the Legislature and we believe this intent is to serve a "constituency" comprising entrepreneurs, investors, intermediaries, and generally the public interest, and to maintain the delicate balance which exists in their sometimes conflicting, and at other times, complementary interests. These considerations must influence our interpretation of the Act and its application to specific facts. Having arrived at an interpretation of the Act, we then must consider the "evidentiary force of the specific facts revealed by the investigation". In this case, the facts are relatively clear. Where the Commission differs with its staff and the Crown Law Officers is in the application of the Act to these facts. In administering the Act, we have attempted to establish a threshold for disclosure which neither forces premature disclosure and its consequent disappointed expectations nor delayed disclosure and its consequent uninformed investment decisions. As I say, this is a delicate balance, a balance tested by this case, but which the Commission had little difficulty resolving on a unanimous basis.

The procedures followed by the Commission in making available its investigation report to the Crown Law Officers and hearing their submissions represent, in my view, a compromise of the Commission's procedures. We have justified the compromise on the

The Honourable Robert G. Elgie, M.D. April 12, 1983

basis of, in the words of the Attorney General,
"the strong involvement of Crown Law Officers
in advising the police from the beginning of the
investigation" and of the high regard we have
for the Attorney General and the Crown Law Officers.

Yours very truly,

Dear Dr. Elgie:

Re: Norcen Energy Resources Limited

I am writing in anticipation of media comment concerning my involvement in the Commission's consideration of its staff report on the Norcen investigation. The comment will be to the effect that I was a partner in the law firm which provides legal advice to Norcen from time to time, at the time of the events which were the subject of the investigation, and therefore, should not have had any involvement in the Commission's consideration of the report. This issue was addressed by me and by others prior to the Commission's consideration of the report.

As you are aware, I was indeed a partner of this law firm and resigned January 3, 1983 to become Chairman of the Commission on January 4. I have no interest in the firm other than that of a creditor in respect of an amount which constituted my equity in the firm when I was a partner. The amount of this debt is being paid to me over a period of time. While a partner, I had absolutely no involvement in the matters which were the subject of the Commission's investigation.

Before I decided to participate in the Commission's consideration of the matter, I consulted our senior staff and the Commission's outside counsel,

Brian Bellmore of Messrs. Lockwood, Bellmore and Moore, and was advised that I could participate in the consideration of the report on the basis that I have no interest in my former firm and that the Commission's consideration was an internal administrative matter and not a public quasi-judicial proceeding. In addition, before any consideration of the matter by the Commission, I made full disclosure of the issue to my fellow Commissioners who confirmed my ability to be involved in the Commission's consideration of the matter. As previously advised, all of the available Commissioners (eight of nine) participated in the consideration of the investigation and the conclusion of the Commission was unanimous.

On reflection, the Commission's consideration ceased to be an internal matter when we took the unusual step of opening our files to the Crown Law Officers. This was done to ensure that we had not overlooked material evidence which might have been available as a result of the parallel police investigation. As events transpired, the involvement of the Crown Law Officers raised basic issues concerning responsibility for securities administration in the Province and I remained involved to deal with these issues.

Dear Dr. Elgie:

Re: Norcen Energy Resources Limited

Peter Dey, Q.C., Chairman of the Ontario Securities Commission, has provided each of us with a copy of his letter to you regarding his role in the disposition of the Norcen investigation. We understand that Mr. Dey wrote to you in anticipation of media comment concerning his involvement in the OSC's consideration of the Norcen investigation report submitted by the OSC staff because Mr. Dey was a former partner of the law firm that provides legal advice to Norcen from time to time.

We, as the members of the Commission who participated in the deliberations relating to the Norcen investigation, wish to confirm to you the accuracy of the description of Mr. Dey's involvement in the matter as set forth in his letter to you. In particular we would like to emphasize that Mr. Dey at the outset of our discussions, explained his previous association with the law firm, that he has no present interest in the firm other than as a creditor as he described to you, and that he had taken advice from Brian Bellmore, special counsel to the Commission, as to Mr. Dey's participation in discussing the matter on the basis outlined in his letter.

As a Commission, we unanimously agreed to urge the Chairman to participate in the matter because of the importance of the issues raised and the fact that we viewed Mr. Dey's previous association as in no way interfering with his ability or capacity to handle in an objective and unbiased manner the situation before the Commission.

In this connection, we also wish to emphasize in the strongest terms possible the exemplary manner in which the Chairman conducted the discussion. He, as his custom, went to great lengths to ensure the fullest and fairest treatment of the matter and especially to explore all possible approaches to ensure the public interest was fully served.

The Commission has complete confidence and trust in its Chairman and in the way he has handled his duties, and this confidence and trust was confirmed by the way he participated in and handled the Norcen matter. In no way did he make any effort to influence the decision of any of us. In short, the Chairman acted most fairly, objectively, and thoroughly in carrying out his responsibilities.

We know that a letter of this kind is unusual and extraordinary but because of the importance of the issue to the due administration of the securities laws of Ontario and our esteem for the Chairman, we felt obliged to give you our views.

Yours faithfully,

DELIVERED

Peter J. Dey, Q.C.
Chairman
Ontario Securities Commission
20 Queen Street West
Toronto, Ontario
M5H 3S8

Dear Mr. Dey:

This will serve to confirm my opinion I gave on March 24 as to whether you would be precluded from participating in the consideration by the Commission of the staff memorandum on the Norcen-Black investigation, and, the formulation of a recommendation to the Minister regarding charges under the Securities Act by reason of your previous association with Osler, Hoskin & Harcourt.

It was my understanding that upon your appointment to the Commission you terminated your relationship with Osler, Hoskin & Harcourt, had no financial interest in that firm other than that of a creditor in respect of your equity while a partner and that while you were associated with the firm you did not participate directly or indirectly in giving legal advice to Norcen or the principals of that company in connection with any aspect of the matters which were the subject of the staff investigation. On that basis, it was my opinion that you were not precluded from participating in the deliberations of the Commission.

There have been a number of recent decisions of Canadian courts which have considered the question of whether members of administrative tribunals are disqualified from participation in hearings due to previous associations with parties to the proceedings or their counsel. In these cases the courts have emphasized that the specialized role of an administrative tribunal requires its members have a developed knowledge and expertise in the particular industry being regulated. The courts recognize that persons appointed to tribunals will necessarily have been actively involved in the industry and have held that a prior professional association with the party or with counsel to a party in and

Lockwood, Bellmore & Moore

- 2 -

of itself has not been a ground for establishing a reasonable apprehension of bias so long as the adjudicator has no involvement in the matter in question. Having regard to the termination of your previous association with the law firm representing Norcen Energy Resources Limited and the fact that you were not involved in giving advice in the matter prior to leaving the firm, it was my opinion that there was no bias or apprehension of bias as that term has been defined by the courts.

The starting point of the applicable legal principles is the common law rule against bias which the courts apply in exercising their jurisdiction over administrative tribunals. The rule is based on the common law maxim that "no person shall be the judge in his own cause." The Courts have elaborated on this maxim and developed a further principle that there must not be a reasonable apprehension of bias. (R v Sussex Justices Ex p. McCarthy [1924] 1 K.B. 256). In applying this maxim pecuniary interest in the subject of the hearing results in a presumption of bias and automatic disqualification Re: W. D. Latimer Co. Ltd. et al and Bray et al (1974), 52 D.L.R. (3d) 161 (O.C.A.), 168; R. v Ontario Labour Relations Board ex parte Hall (1963), 39 D.L.R. (2d) 113 (Ont. H.C.) at p 118.

The Supreme Court of Canada in Committee for Justice and Liberty et al v National Energy Board (1976), 68 D.L.R. (3d) 716, 735 (the "NEB case") adopted the following formulation of a test to assess whether there was an appearance of bias sufficient to disqualify a member of an administrative tribunal:

"... the apprehension of bias must be a reasonable one, held by reasonable and right-minded persons, applying themselves to the question and obtaining thereon the required information ... the grounds for the apprehension (of bias) must, however be substantial ..."

In the NEB case, Chief Justice Laskin in his decision for the majority of the court held that there was an important distinction between the test of bias as applied to a member of a court and the test applied to a member of an administrative tribunal:

"The question of bias in a member of a Court of Justice cannot be examined in the same light as that in a member of an administrative tribunal entrusted by statute with an administrative discretion exercised in the light of its experience and of that of its technical advisors."

Among the factors to be taken into account in establishing the requirements of natural justice and bias for administrative tribunals are the nature of the inquiry, the rules under which the tribunal is acting and the subject matter that is being dealt with (Russell v Duke of Norfolk et al

Lockwood, Bellmore & Moore

- 3 -

(1949) 1 All. E.R. 109, 118). The application of these factors was considered by the Divisional Court in the leading Ontario case of Re Marques v Dylex Ltd. et al (1977) 18 O.R. (2d) 58. In that case, the Vice-Chairman of a panel of the Labour Relations Board at a hearing involving a union certification application was asked to disqualify himself by counsel for the company on the grounds of an apprehension of bias in that prior to his appointment to the Labour Board, he was a lawyer employed by the law firm which was acting as solicitors for the union in the matter. Further, during the period that he was with the law firm, that firm had provided legal services to the union and the Vice-Chairman had acted for the union with respect to matters which were unrelated to the issues before the Board.

In holding that in the circumstances of the case there was not a reasonable apprehension of bias as that term was understood and applied by the courts, Mr. Justice Morden, for the Divisional Court applied the reasons of Chief Justice Laskin in the NEB case that the prior business association of the Vice-Chairman did not disqualify him from sitting on the case. Chief Justice Laskin at page 730 of the NEB case held:

"While I would not see any vice in Mr. Crowe (who prior to his appointment had been a member of the Study Group) sitting on an application coming from or through the Study Group in relation to a matter in which he was not involved, even though it was decided upon shortly after his dissociation from the Study Group, that is not the case."

Mr. Justice Morden also commented upon the distinction to be made between a member of a tribunal and a member of a Court in applying the test of bias at page 70 of the Court's judgment.

"Further, on a more general plane, the nature and functions of the Board itself have to be regarded. The fact that a Judge in similar circumstances, would not, I would think, have heard the case is not determinative . . . We can take judicial notice, if it is not apparent from the Labour Relations Act itself, that members of the Labour Relations Board and in particular the chairmen of panels will have had experience and expertise in the law and labour relations. The Government of Ontario looks to people with such a background in making appointments. Most, if not all of those appointed, are bound to have some prior association with parties coming before the Board. . .

Lockwood, Bellmore & Moore

- 4 -

Such people, having taken an oath of office . . . and, at least in the case of trained lawyers being conscious of the necessity of ridding their minds of extraneous matters, it is not unreasonable to assume that they, in exercising their jurisdiction, will act in good faith."

Reference should also be had to the decision of Mr. Justice Hyde in R. v Picard et al (1968) 65 D.L.R. (2d) 658, 661 which was relied upon by Mr. Justice Morden. In that case the Quebec Court of Queens Bench found that there was not an apprehension of bias at law in a case where a Commissioner had been consulted more than a year prior to his appointment by a company which controlled one of the parties appearing before the Commission. Mr. Justice Hyde in his reasons held:

" . . . I am quite unable to anticipate a biased approach by Commissioner Picard on the ground raised by Appellant. Professional persons are called upon to serve in judicial, quasi-judicial and administrative posts in many fields and if Governments were to exclude candidates on such a ground, they would find themselves deprived of the services of most professionals with any experience in the matters in respect of which their services are sought."

In summary, in determining whether at law there is a reasonable apprehension of bias in members of administrative tribunals, the courts recognize that members of such tribunals will necessarily have had a prior professional association with the parties or their counsel and that such an association is not grounds for establishing a reasonable apprehension of bias provided that the member had terminated his prior association and had no involvement in the matter before him.

If you require any further elaboration on the above or have any questions concerning this matter, do not hesitate to contact me.

Yours sincerely

2.2 THE OPTIONS CLEARING CORPORATION

IN THE MATTER OF THE SECURITIES ACT,
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF THE OPTIONS CLEARING CORPORATION
RULING
(Section 73)

UPON the application of The Options Clearing Corporation ("OCC") to the Ontario Securities Commission (the "Commission") for a ruling pursuant to section 73 of the Securities Act, R.S.O. 1980, c. 466 (the "Act") that trades in exchange traded options entered into on the Chicago Board Options Exchange, the American Stock Exchange, Inc., the Philadelphia Stock Exchange, Inc. and the Pacific Stock Exchange (the "Exchanges") are not subject to section 52 of the Act insofar as the form and delivery of a prospectus are concerned, where the underlying securities are:

1. debt instruments, specifically treasury bonds and treasury notes of the United States of America, treasury bills of the United States of America, certificates of deposit issued by top-tier banks, and GNMA securities ("Debt Options"); and
2. currencies, specifically British pounds, Swiss francs, Japanese yen, Deutsch marks and Canadian dollars, or such additional foreign currencies for which provisions for trading are made by the Exchanges ("Currency Options");

WHEREAS the Commission has granted orders and rulings to OCC, the cumulative effect of which is to permit the filing of a prospectus and a summary disclosure document with the Commission, and the delivery to the investor of such summary disclosure document in lieu of the prospectus for put and call options on equity securities, including Canadian securities, which options are traded on the Exchanges and in respect of which OCC is the clearing corporation;

AND WHEREAS OCC has filed a prospectus for which a final receipt was issued by the Director on November 12, 1982;

AND WHEREAS the ruling requested would permit the trading of Debt Options or Currency Options on the Exchanges, where OCC is the clearing corporation, where investors are provided with, in lieu of a prospectus, a summary disclosure document in the form approved by the Commission pursuant to its ruling dated October 28, 1982 (the "Options Disclosure Document"), and an additional disclosure document expressly dealing with Debt Options or Currency Options, as the case maybe, substantially in the forms now submitted to the Commission in respect of the subject application and attached as Schedules "A" and "B" hereto (respectively the "Debt Options Disclosure Document" and the "Currency Options Disclosure Document");

AND WHEREAS the Investment Dealers Association, Ontario District Council, has stated that it has no objection to the subject application;

AND WHEREAS the Commission has heard counsel for OCC, The Toronto Stock Exchange and for the Commission;

AND WHEREAS the Commission is of the opinion that it is not prejudicial to the public interest to so rule;

AND WHEREAS the Commission has been assured by the Canadian Securities Institute that the Canadian Options Course and the examination relating thereto will be modified so that effective July 5, 1983, such examination will include sufficient questions regarding Debt Options and Currency Options so as to adequately examine individuals who have completed such examination on their proficiency with respect to Debt Options and Currency Options;

AND WHEREAS the Commission has been assured by the Canadian Securities Institute that the Canadian Commodity Futures Examination will be modified effective July 5, 1983, so that such examination will include sufficient questions regarding Currency Options, options based on gold bullion and currencies listed and traded on either The Montreal Exchange or the Vancouver Stock Exchange and cleared through the International Options Clearing Corporation B.V., and options based on silver bullion listed and traded on The Toronto Stock Exchange and cleared through Intermarket Services Inc., so as to adequately examine individuals who have completed such examination on their proficiency with respect to such options;

AND WHEREAS the Commission has been assured by The Toronto Stock Exchange that it will use its best efforts to ensure that its members, and those futures commission merchants which are subject to its audit and compliance jurisdiction, will obtain and deliver to those individuals who currently hold or are hereafter granted approval to trade options of any nature copies of educational material relating to options prepared by OCC, specifically including, in the case of individuals who are officers or employees of its members, the Options Disclosure Document, the Debt Options Disclosure Document and the Currency Options Disclosure Document, and in the case of individuals who are officers or employees of futures commission merchants who are not members of The Toronto Stock Exchange, the Options Disclosure Document and the Currency Options disclosure Document;

NOW THEREFORE it is ruled that section 52 of the Act shall not apply to a distribution of Debt Options or Currency Options in respect of which OCC is the clearing corporation so far as the form and delivery of a prospectus is concerned, on the following terms and conditions:

1. Trades in Debt Options or Currency Options, as the case may be, are executed on one of the Exchanges, in compliance with applicable securities legislation and with the rules and requirements of such Exchange;
2. Each customer, prior to trading Debt Options or Currency Options, shall have received a copy of the Options Disclosure Document current at the time of receipt, and a copy of the Debt Options Disclosure Document or the Currency Options Disclosure Document, as the case may be, current at the time of receipt;

3. If there is a material change in the information contained in the Options Disclosure Document, the Debt Options Disclosure Document or the Currency Options Disclosure Document:
 - (a) each prospective customer, prior to the opening of an account to trade in Debt Options or Currency Options as the case may be, shall be furnished with a dated copy of the relevant Document amended to reflect the material change ("an amended Document"); and
 - (b) each current customer, to whom an Options Disclosure Document, Debt Options Disclosure Document or Currency Options Disclosure Document was previously furnished, shall be furnished with:
 - (i) an amended Document; or
 - (ii) an amendment describing the material change;
4. OCC will renew its prospectus from time to time as required pursuant to section 61(2) of the Act, but the obligation to send or deliver a prospectus pursuant to Section 70 of the Act shall be fulfilled by the dealer's sending or delivering the Options Disclosure Document, and the Debt Options Disclosure Document or the Currency Options Disclosure Document, as the case may be, in lieu of the prospectus; provided that, if the customer so requests, a copy of the prospectus shall also be sent or delivered without charge to the customer;
5. The provisions of sections 70 and 130 of the Act with respect to a prospectus shall apply with necessary modifications to an Options Disclosure Document, the Debt Options Disclosure Document and the Currency Options Disclosure Document delivered under the provisions of this ruling;
6. The Debt Disclosure Document shall, together with the Options Disclosure Document, contain true and plain disclosure of the material facts relating to the Debt Options which OCC believes, on reasonable grounds, are most relevant to a prudent investor who is considering whether to acquire such securities;
7. The Currency Options Disclosure Document shall, together with the Options Disclosure Document, contain true and plain disclosure of the material facts relating to the Currency Options which OCC believes, on reasonable grounds, are most relevant to a prudent investor who is considering whether to acquire such securities;
8. Where an Options Disclosure Document, the Debt Options Disclosure Document, or the Currency Options Disclosure Document contains an untrue statement of a material fact or omits to state a material fact that is required under the provisions of this ruling to be stated or that is necessary to make a statement not misleading in the light of the circumstances in which it was made, such misrepresentation shall be deemed to be contained in the current prospectus of OCC for the purposes of section 126 of the Act;
9. Trades in Debt Options are effected only through a registrant who is a member of The Toronto Stock Exchange; and

10. Trades in Currency Options are effected only through:

- i) a registrant who is a member of The Toronto Stock Exchange; or
- ii) a dealer who is registered as a futures commission merchant under the Commodity Futures Act.

CHAPTER 3

REASONS: DECISIONS, ORDERS, RULINGS

3.1 TEX-U.S. OIL & GAS INC.

IN THE MATTER OF THE SECURITIES ACT,
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF TEX-U.S. OIL & GAS INC.

DECISION OF THE COMMISSION
(Section 8(2))

Hearings: February 23, 1983 and March 4, 1983

<u>Present:</u> Peter J. Dey, Q.C.	- Chairman
Keith E. Boast	- Vice-Chairman
E.S. Miles	- Commissioner
 Martin Teplitsky, Q.C.	 - Counsel for William Brown
K. Arenson	
 Gary W. Curran	 - Counsel for the Ontario
Margaret Haig	Securities Commission

This is an application under section 8(2) of the Securities Act (the "Act") for a hearing and review of a decision by the Director to refuse to issue a receipt for a prospectus under section 60(2) of the Act.

A preliminary prospectus was filed with the Ontario Securities Commission (the "Commission") on June 25, 1982 relating to a proposed new issue of 400,000 common shares at \$.50 per share by Tex-U.S. Oil & Gas Inc. ("Tex-U.S.") to be offered to the public through Yorkton Securities Inc. acting as agent. A secondary offering of 200,000 shares may be made if the 400,000 shares are subscribed and paid for. Pursuant to section 60(2) of the Act, the Director refused to issue a receipt for a prospectus filed by Tex-U.S., having concluded that the past conduct of one William Brown ("Brown"), a co-promoter of Tex-U.S., in the language of clause 60(2)(e) of the Act, "affords reasonable grounds for belief that the business of the issuer will not be conducted with integrity and in the best interests of its security holders" or, that Brown, in the language of clause 60(2)(i) is "a person or company who has prepared or

certified any part of the prospectus or is named as having prepared or certified a report or valuation used in connection with a prospectus AwhoA is not acceptable to him Athe DirectorA."

The written reasons of the Director dated February 7, 1983 are based upon an agreed statement of facts. The Director's decision was based upon Brown's past conduct. The Director noted "The fact of those charges reflects his past conduct and forms part of his reputation, and specifically his reputation in connection with the distribution of securities to the public. That past conduct and reputation is the basis of my belief and my finding under Aclauses 60(2)(e) and 60(2)(i) of the ActA. In addition to the several criminal charges mentioned in the context of Brown's past reputation, I am obliged to consider Brown's past connections with Rosen and with Melvin Feder ("Feder"). Those connections do not create 'guilt by association' but do go to Brown's reputation."

The Director relied upon the following criminal charges in reaching his decision:

- (i) In 1976, Brown and Feder were charged with uttering a forged document and conspiracy to issue a false prospectus. The charges against Brown were withdrawn and Feder was convicted.
- (ii) In 1979, charges were laid against Brown relating to engaging in the business of bookmaking and betting; these charges were subsequently withdrawn.
- (iii) In 1977 or 1978, forgery and false statement charges were laid against Brown and subsequently withdrawn or dismissed.

The Director also relied upon the following connections of Brown with others:

- 1. From June 1974 to 1976 Brown acted as solicitor for Sydney Rosen, who was subsequently convicted of fraud under the Criminal Code.
- 2. Brown and Feder were charged with uttering a forged document and conspiracy to issue a false prospectus. In addition, Brown acted as solicitor for Tex-U.S. (then Diversified Mines Limited) in connection with an agreement to extend an existing loan agreement between Tex-U.S. and Devon Resources Limited, when both companies were controlled by Feder. Brown states that he did not know that Feder controlled Tex-U.S. through nominees at the time of such loan extension.

The Commission has concluded that the existence of (i) the criminal charges, which were withdrawn or dismissed, (ii) the connections referred to above and (iii) the other evidence before the Commission on this application, do not afford the Director reasonable grounds for refusing to issue a receipt for the Tex-U.S. prospectus. This conclusion is based upon two principles:

- (i) The Commission is of the view that it must presume Brown innocent of the conduct which was the subject matter of the criminal charges, because the charges have all been withdrawn or dismissed; and
- (ii) a solicitor's conduct is not defined by the character of the parties with whom he has a solicitor-client relationship.

The Director must have evidence other than the withdrawn or dismissed criminal charges and the connections described above, upon which to base a decision to refuse to issue a receipt to Tex-U.S. We are therefore prepared to overrule the Director and order that the Director proceed with a review of the Tex-U.S. prospectus without considering that Brown is not acceptable on the basis of the facts set out in the agreed statement of facts.

There is a range of purposes for which individuals seek access to the securities markets. At one end is the access that an individual seeks in order to trade on his own behalf. Recently, the Commission has had the opportunity to consider at least one of the principles which should guide it in deciding whether an individual should continue to enjoy access to the public securities markets for purposes of trading on his own account. The Commission concluded in three cases (In the Matter of Rudolf Zabel; In the Matter of Leslie Allen; In the Matter of Emile Badovinac) that conviction for a securities related offence does not alone constitute a sufficient basis for the Commission to exercise its powers under section 124 of the Act to remove the registration exemptions from the party convicted so as to deny to that party the ability to trade in securities on his own behalf. Evidence in addition to a conviction for a securities related offence would have to suggest that the individual would somehow pose a present danger to the public securities markets if he continued to enjoy access to the markets.

At the other end of the spectrum is the access which an individual seeks in order to act as a registrant trading in securities on behalf of others. The Director is obliged under section 25 of the Act to grant registration where the applicant is suitable for registration and the proposed registration is not objectionable. In this connection the Director may well, and appropriately, apply stricter standards than the Commission might adopt in determining whether to exercise its powers under section 124 to deny the privilege of trading on one's own account because a registrant will be dealing in funds and securities on behalf of others. The standards to be applied by the Director under section 60 in determining whether to refuse to issue a receipt for a prospectus will vary depending upon the facts of each case.

In the case before us, we note that the prospectus in question relates to a primary offering of 400,000 shares at \$.50 per share and a possible secondary offering of 200,000 shares. We also note that Brown is a member of the Law Society of Upper Canada entitled to practice as a barrister and solicitor in Ontario and, is subject to regulation as a member of that Society and that letters of reference on behalf of Brown have been provided to the Commission from:

1. Sam L. Cureatz, M.P.P. and Deputy Speaker;
2. Douglas J. Barber, Barrister & Solicitor, Bowmanville, Ontario; and
3. Rabbi Dr. David Monson, Toronto, Ontario.

We also wish to note that denying a receipt for a prospectus may have implications for Brown beyond the ability of Tex-U.S. to have access to the public securities markets, and may reflect upon his capacity to conduct a law practice.

We are certain that Brown is aware that the Commission will use its resources and exercise its powers to ensure that the business of Tex-U.S., and indeed, the businesses of all companies that have access to public markets, are conducted with integrity. Brown should also appreciate that, as a result of this decision, and subject to Tex-U.S. resolving any other outstanding comments on its prospectus, that the company, of which he is a promoter, is

being provided with an opportunity to raise funds in the public market, and that the Commission will review carefully the operations of Tex-U.S. in the event that Tex-U.S. or any other company with which Brown is associated, seeks to have further access to the public markets.

We recognize that in reaching this decision we must balance both the fairness of the application of the Securities Act to Brown and the public's confidence in our securities markets. In reaching our conclusion, we have assumed that Brown, as a legal practitioner, is acutely aware of and understands the position of trust and responsibility that he has assumed as a director and officer of a company which has access to the public securities markets.

5-69

3. Secondary Offerings

Where a secondary offering is being made pursuant to the same prospectus as a primary, the secondary vendors must bear their proportionate share of the expenses of distribution.

4. Opinions

- (a) Counsel responsible for opinions presented in the prospectus (e.g. tax, eligibility) must be named.
- (b) In all prospectuses where the income tax aspects of the investment are particularly relevant to the investor (for example, "tax shelter" offerings), there must be a bold face statement to the effect that investors are advised to consult their own tax advisors.

5. Layman's Terms

The substance of expert reports, for example, engineering reports or regulatory explanations, must be presented in layman's terms. Such presentation is the responsibility of the issuer.

6. Certificates

The date of the certificates on the preliminary or final prospectus should be on or within three business days of the date of filing the prospectus.

7. Final Material

Annual or interim financial statements that have been placed before the board of directors of the issuer for approval for release to the public prior to filing final material must be included in the prospectus, or in the case of interim financial statements, summarized if appropriate.

8. Directors' Resolutions

A certified copy of a resolution of the board of directors of every corporation, except an underwriter, which has signed a prospectus will be required.

9. Project Financing and Limited Partnership Offering

The co-tenancy, unitholders' or limited partnership agreement must be attached to both the preliminary and the final prospectus.

5-70

10. Marked-up Copies

It is strongly recommended that when the comments of the various securities regulators have been resolved, a draft of the final prospectus with all proposed changes from the preliminary prospectus clearly marked be submitted well in advance of final material. Where the number or extent of changes is substantial, this is essential to prevent delay in the issuing of the final receipt.

B. Frequently Occurring Prospectus Deficiencies

The Corporate Finance staff has prepared a list of frequently occurring deficiencies in compliance with the Act and the Regulation, which is set forth below.

CAUTION: This is not all-inclusive list of matters in respect of which compliance will be required. It is intended only for the assistance of issuers, underwriters and their solicitors preparing and filing prospectuses.

1. Concurrent Applications

The following applications must be made, an order issued in respect thereof, and any requisite undertakings received before a final receipt is issued:

- (i) Project Financing - sections 79 and 87 of the Act (Policy 5.1, Item 16).
- (ii) Non-Registrant Underwriters - section 25 or 73 of the Act (Policy 5.1, Item 12, section 27(1)4 of the Regulation).
- (iii) Issuer Registration - section 25 of the Act (Section 27(1)4 of the Regulation).

- (b) Comply with National Policy 13 (section 39 of the Regulation).
- (c) Comply with National Policy 14 in disclosing the offering price in Canadian currency.
- (d) Comply with National Policy 32.
- (e) Disclose the date of closing in accordance with section 27(1)5 or 27(1)7 of the Regulation.
- (f) Disclose that there is no market for the securities nor is a market expected to develop (section 27(1)6 of the Regulation).

5-71

- (g) Disclose the effective yield of debt securities (e.g. Form 12, Item 1).
- (h) Provide a speculative warning or risk factor disclosure, including:
 - (i) dilution, if in excess of 10%
 - (ii) exposure to personal liability
 - (iii) possibility of call for additional contributions
 - (iv) reliance on expertise and integrity of management
 - (v) absence of track record of issuer or management
 - (vi) industry-related risks.
- (i) Disclose that the offering price has been established through negotiation between the issuer or vendor and the underwriter (e.g. Form 12, Item 3).
- (j) Where Policy 5.2 is applicable, disclose issuance of promoters' shares, vendors' shares and underwriter's bonus shares in respect of the offering.
- (k) Where the securities to be offered, and/or securities of the same or another class to be issued pursuant to a convertible security or a warrant, will be listed on a stock exchange, the usual listing statement must be made. It is a condition of the Director's permission under section 37(3) of the Act, which permission is evidenced by the issuance of a final receipt, that the Commission be in receipt of a communication addressed to it acknowledging the application for listing by the relevant stock exchanges (Policy 5.1, Item 7).
- (l) Comply with Policy 1.3 as to face page disclosure.
